UniConnect guide for Mac OSX 10.5/10.6 with Safari or Firefox

**NOTE:** Java must be enabled on your system in order to connect to UniConnect. Go to Applications > Utilities > Java Preferences and ensure 'Applet Plugin and Web Start Applications' is 'Enabled'.

**Step one**
Open either Safari or Mozilla Firefox and go to: http://uniconnect.uwa.edu.au/

**Step two**
Agree to the Terms & Conditions and enter the following:
- **Username:** UWA Person ID (i.e. your student or staff number)
- **Password:** Pheme password
Then click 'Sign In'.

**Step three**
Network Connect will launch and after a few moments the following prompt will appear:

Tick the 'Allow all applets from "uniconnect.uwa.edu.au" with this signature' box and select 'Allow'.

**Step four**
When presented with the Setup – Control Warning screen, please select 'Always'.

The setup process will now commence installing the Network Connect software which will manage your UniConnect connection.

**Connected!**
After a few moments the Network Connect software should have installed and a connection established successfully. You will see the following window appear:

**NOTE:** The Network Connect application will continue to run in the background whilst you are connected.

Uniconnect guide for Mac OSX 10.5/10.6 with Safari or Firefox

To disconnect
To disconnect, simply click on the 'Sign Out' button located on the upper right-hand side of the Network Connect window. This will present the following prompt:

Select 'Sign Out'. Your session will now end.

To connect
Once the software is installed, you can connect and disconnect via the Network Connect application, located in the Applications folder:

Search for the application entitled 'Network Connect' and open it.

**NOTE:** You may be prompted to re-enter the Uniconnect URL in the 'Sign in as' field as pictured below:

After a few moments, you may be prompted to enter your Person ID and Pheme password:

Once done, you will be re-connected after a few moments.

Doesn’t work?
Help is available! But before coming for help, please try the following:

- Check your student number and Pheme password are correct and not expired.
- Check Java is enabled on your system. This is explained at the start of this guide.

Still doesn’t work? Help is available! Contact Information Services:

**In person:** At the information desk in your subject library

**Self-service or email:**
www.uwa.edu.au/askuwa

**Telephone numbers at:**
