Unifi on Windows Phone 8

Step one
Open your phone to the Home screen and swipe across to the Apps page.

Tap on the magnifying glass symbol in the top left then type in ‘Settings’. Open settings by tapping on the search result.

Step two
Select ‘WiFi’ from the settings list and ensure the WiFi adaptor is switched on.

Step three
Select ‘yes’ at the security prompt.

Select ‘Unifi’ from the list of available networks.

Enter your credentials when prompted:

Username: Your UWA student number
Password: Your Pheme password

More information: www.unifi.uwa.edu.au
Unifi on Windows Phone 8

You are done!

After a few seconds you should be notified that the connection was established successfully. You now have Internet access.

Doesn’t work?

Try the following tips:

- Double-check your student number and Pheme password are correct and have not expired
- Move around to ensure you are in a location with good wireless reception

Still doesn’t work? Help is available!
Contact the University Library:

In person: At the information desk in your subject library
